URGENT CALL TO ACTION
FOR BUSINESSES IN THE NOOSA SHIRE

Public Meeting
5pm - 7pm Wednesday 01 December 2021
Noosa River Stage, Gympie Terrace

Voice your concerns, ask questions and discuss ways forward regarding the upcoming vaccine passport mandate and associated directives & responsibilities for businesses.

Bring something to sit on if you need to & be settled by 5pm
A retired lawyer will be present to speak and answer questions.

Have the lockdowns, masking, check-ins and other directives impacted on your business over the last 20 months?
Are you concerned about having to enforce & monitor the upcoming vaccine passport mandate on the governments behalf?

Is it really your job to be the enforcers for the government and council?

Are you confused about your duties and obligations?

Do you want to lose more customers and income?
Do you want to live in a shire where segregation underpins society?

It is the Government that will fine a business for breaching the 1988 Privacy Act. The Human Rights Commission, a taxpayer funded department, is already gathering cases across Australia. The cost to individual businesses can be in the hundreds of thousands of dollars. Can we afford to risk the cost of legal actions and financial settlements for perhaps well intentioned or unwitting acts of discrimination or breaches of the Privacy Act and other laws? In addition, businesses are liable for the injury or death of an employee who has been forced to take the jab to keep their job.

Livingstone Shire Council (Yeppoon) has already acted to become a pro-choice shire. They are not upholding ANY vaccine status segregation. We aim to do the same.
